#### Corporate

## **Change in Directors**

On 20 October 2017, the Company announced the appointment of Stefan Muller and the resignation of Paul Lloyd as Non-Executive Director of the Company with effect from 20 October 2017.

#### **Capital Raisings and Movements**

On 11 August 2017, the Company issued 3,722,222 unlisted options with an exercise price of \$0.05 expiring on 31 March 2020 to investors and creditors pursuant to the placement of shares on 8 June 2017, 15 June 2017 and 3 July 2017.

On 9 September 2017, the Company released 172,406,363 fully paid ordinary shares from voluntary escrow.

On 13 October 2017 and 17 October 2017, the Company completed placements of 45,980,000 fully paid ordinary shares at \$0.05 per share to raise cash funds of \$2,132,500 (before costs) and settle certain creditors of the company of approximately \$166,500.

On 20 October 2017, the Company issued 20,000 shares to raise funds of \$1,000 pursuant to a cleansing prospectus.

On 29 November 2017, the Company issued 1,711,111 fully paid ordinary shares and 855,555 options with an exercise price of \$0.05 per share expiring on 31 March 2020 in lieu of outstanding director's fees as approved at the annual general meeting of shareholders held on 29 November 2017.

On 29 November 2017, 1 December 2017, 4 December 2017 and 11 December 2017, the Company issued 12,376,184 fully paid ordinary shares following the conversion of options with an exercise price of \$0.05 expiring on 31 March 2020.

On 1 December 2017, 4 December 2017 and 15 December 2017, the Company issued 5,000,000 fully paid ordinary shares following the conversion of options with an exercise price of \$0.125 expiring on 27 February 2020.

On 11 December 2017, the Company completed a placement of 22,222,220 fully paid ordinary shares at \$0.225 per share to raise cash funds of \$5,000,000 (before costs). On the same day, the Company issued 5,555,556 options to shareholders who participated in the placement and 3,150,000 options to facilitators of the placement which are exercisable at \$0.25 on or before 31 May 2019. A further 11,250,000 facilitator options pursuant to the placement will be issued to Directors Tony Sage (2,500,000), Stefan Muller (6,250,000) and Malcolm Day (2,500,000) upon receipt of shareholder approval, at which time the options will be valued and recorded as a capital raising costs.

## **Dual Listing**

On 5 October 2017, the Company announced that it had been admitted to the Vienna Stock Exchange (VSE). Trading on the VSE commenced on 9 October 2017.

### Change in Constitution

On 29 November 2017, the Company adopted a new constitution following the passing of a special resolution at the annual general meeting of shareholders held on 29 November 2017.

#### **DIRECTORS' REPORT**

#### Suspension and Reinstatement of Trading

On 7 July 2017, the Company's securities were suspended from official quotation in relation to cleansing notices issued on 8 June 2017, 15 June 2017 and 3 July 2017 relating to the issue of ordinary shares on 8, 15 and 30 June 2017 (**Shares**) which did not exempt the sellers of the Shares from their obligation to make disclosure pursuant to s707(3) of the Corporations Act 2001 because the Shares were not in a class of securities that was trading on the ASX and not suspended for more than a total of 5 days during the previous 12 month period.

The Company prepared a short form cleansing prospectus which was lodged with ASIC on 10 July 2017. In addition, the Company lodged an application with the Federal Court of Australia seeking urgent declaratory relief and ancillary orders relating to the issue of securities and the subsequent offer for sale, or sale, by some of the subscribers to those securities. The Company sought orders declaring that any offer for sale or sale of the securities from the date of issue of the securities until 10 July 2017 was not invalid by reason of the seller's failure to comply with s707(3) of the Corporations Act 2001. On 26 July 2017, the Company was granted the relevant court orders and was reinstated to trading on ASX at the open of market on 27 July 2017.

#### Wolfsberg Lithium Project - Austria

#### **Exploration**

The deep drilling programme was completed and reported to the ASX on 3 July 2017 "European Lithium increases resources at Wolfsberg adding 4.7 million tonnes at 0.78% Li2O in Zone 1" with an explanatory amendment on 7 July 2017. The Zone 2 drilling programme that was suspended in June 2017 after completing 3 of 9 planned drill holes was resumed in December 2017. Contracts for the Exploration Manager, GeoUnterweissacher, and drilling contractor were issued for mobilization and start of drilling mid-January 2018. The programme is scheduled for completion mid-March 2018.

GeoUnterweissacher and Mine-it, the mining information consultant are developing a lithological model using all drill hole and trenching information in Zones 1 and 2. SRK will then assist the Company in using the lithological model to develop a further exploration programme to increase the measured and indicated resources. Increased resources are required to support a lithium production rate higher than currently considered in the PFS.

A report on exploration activities in 2017 has been prepared for the Mining Authority. This work will allow the extension of all exploration licences for another 5 years from their current expiry date of 31 December 2019.

The terms of the mining licences require that mining be carried out for at least 4 months each year. A suspension of this requirement had been obtained until 31 December 2017 to allow further technical studies to optimize the project. Following presentation of these technical studies to the Mining Authority, which were considered satisfactory, an application has been made to extend this suspension for another 2 years to allow completion of the PFS, DFS and construction.

## Land Access

The arbitration on the validity of the agreement reached on 15 April 2011 granting ECM lithium AT GmbH access to and use of Glock Gut property ruled in June 2017 that the agreement remained in full force. Environmental consultants undertaking base line studies were then permitted to enter the property to continue work that had been interrupted since April 2017. This base line work into flora and fauna continued until October 2017.

The agreement of 15 April 2011 provides for arbitration costs to be shared by the two parties. Glock Gut have denied liability for their share of costs which were paid by ECM Lithium AT GmbH. An arbitration claim for recovery of the €160,881 owed has been initiated.

#### Metallurgy

Dorfner Anzaplan completed test work into the conversion of spodumene concentrate into lithium battery grade materials. This was reported to the ASX on 27 July 2017 "Battery grade lithium carbonate and hydroxide made from Wolfsberg spodumene concentrate".

## PFS

A contract was signed on 6 October 2017 with DRA Global (DRA) to undertake the PFS engineering and integrate the work of third party consultants into the PFS. A project kick off meeting was held with the Company, DRA and third party consultants in Wolfsberg on 12-13 October 2017. Engineering work is being conducted between the Johannesburg and Montreal offices of DRA. DRA and consultants have committed to complete the PFS by the end of February 2018 for review by the Company in March 2018.

The base line project has been defined as an underground mine with crushing, screening, ore sorting underground and a concentrator on surface to produce a spodumene concentrate and by-products of feldspar and quartz. The spodumene concentrate will be transported to a conversion plant situated south of Wolfsberg for conversion to lithium carbonate and hydroxide. Alternative locations will be considered as options.

#### **DIRECTORS' REPORT**

Third party consultants contributing to the PFS include:

- SRK mine design
- Dorfner Anzaplan support metallurgical test work for engineering design
- Paterson & Cooke tailings disposal
- Benchmark Minerals Intelligence marketing study for battery grade lithium products
- Orykton Consulting marketing study for spodumene concentrate and by-products from the concentrator and conversion plants.

#### **Environmental and Permitting**

Base line studies into flora and fauna at the mine site were continued until October 2017. Spring monitoring that was interrupted because of land access issues will resume in Spring 2018. Additional studies into traffic, noise and air quality at both the mine site and conversion plant are to be undertaken. SRK have been requested to propose for the hydrogeological study.

### Marketing

The spodumene concentrate offtake agreement with Shandong Ruifu is on hold. The Company is in discussion with a number of parties to deliver battery grade lithium products to the coming lithium battery plants in Europe. The Company has an opportunity to establish itself as a key contributor to an integrated lithium supply chain in Europe. Preliminary evaluation indicates sale of battery grade products in Europe to be of considerably higher project value than concentrate sales to China.

## Paynes Find Gold Project - Australia

Exploration activities on the Paynes Find Gold project during the half year were restricted to minimum amounts to maintain the landholdings due to the difficulty with raising funds in a continuing depressed capital market for gold exploration companies.

As previously announced on 22 December 2016 a Binding Terms Sheet (**Terms Sheet**) was entered into with Cervantes Gold Pty Ltd (Purchaser), a wholly owned subsidiary of Cervantes Corporation Limited (ASX:CVS) (**CVS**), to sell 100% of the right, title and interest in the tenements known as the Paynes Find Gold Project (**Tenements**), located in Western Australia (the **Transaction**).

Consideration for the Transaction consists of \$500,000 cash and \$500,000 share capital in CVS.

The Company has received cash funds of \$220,000 to date with the remaining cash payments due as follows:

- \$25,000 on or before 15 January 2018
- \$25,000 on or before 28 February 2018
- \$230,000 on or before 31 March 2018

On 27 December 2017, the Company was issued 25,000,000 consideration shares in CVS at a deemed issue price of 2 cents each. On the same date, the Company released a notice of initial substantial holder confirming its 7% ownership in CVS as a result of the Transaction.

## **Auditor's Independence Declaration**

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the Directors of the Company with an Independence Declaration in relation to the review of the half-year financial report. This Independence Declaration is set out on page 5 and forms part of this Directors' report for the half-year ended 31 December 2017.

This report is signed in accordance with a resolution of the Board of Directors made pursuant to s.306(3) of the Corporations Act 2001.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Statement of compliance

These half-year condensed consolidated financial statements are general purpose interim financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board (AASB). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

The half-year financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this half-year financial report be read in conjunction with the annual financial report for the year ended 30 June 2017 and any public announcements made by European Lithium Limited and its subsidiaries during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

#### **Basis of preparation**

The half-year financial report has been prepared on a historical cost basis, except for the revaluation of certain financial instruments to fair value. Cost is based on the fair value of the consideration given in exchange for assets. The Company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

#### Accounting policies and methods of computation

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding half-year. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

### Adoption of new and revised standards

Standards and Interpretations applicable to 31 December 2017

In the half-year ended 31 December 2017, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 July 2017. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and therefore no material change is necessary to Group accounting policies.

#### Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet adopted that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 January 2018. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations in issue not yet adopted on the Company and therefore no material change is necessary to Group accounting policies.

#### **Reverse Acquisition Accounting**

The acquisition of European Lithium AT (Investments) Ltd by the Company on 9 September 2016 is considered to be a reverse acquisition under Australian Accounting Standards, notwithstanding the Company being the legal parent of the Group. Consequently, the financial information presented in this Report for the previous half years comparative is the financial information of European Lithium AT (Investments) Ltd for the period 1 July 2016 up to 31 December 2016, and the financial information of Paynes Find Gold Limited (renamed European Lithium Limited) for the period 9 September 2016 up to 31 December 2016.

Where considered relevant, some historical financial information of Paynes Find Gold Limited (renamed European Lithium Limited) for the half-year ended 31 December 2016 has been disclosed.

The legal structure of the Group subsequent to the acquisition of European Lithium AT (Investments) Ltd will be that the Company will remain as the legal parent entity. However, the principles of reverse acquisition accounting are applicable where the owners of the acquired entity (in this case, European Lithium AT (Investments) Ltd) obtain control of the acquiring entity (in this case, the Company) as a result of the businesses' combination.

Under reverse acquisition accounting, the consolidated financial statements are issued under the name of the legal parent (the Company) but are a continuation of the financial statements of the legal subsidiary (European Lithium AT (Investments) Ltd, with the

assets and liabilities of the legal subsidiary being recognised and measured at their pre-combination carrying amounts rather than their fair values.

#### Significant accounting judgments and key estimates

The preparation of half-year financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this half-year financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2017.

<sup>&</sup>lt;sup>1</sup> As part of the terms of the acquisition, European Lithium AT (Investments) Ltd (EL AT) assumed approximately \$1,500,000 of historic creditors, related to expenditure in developing the Wolfsberg Project, from European Lithium Ltd, BVI. Management have since been able to negotiate repayment terms with certain creditors agreeing to a reduced settlement amount paid in either cash or a combination of cash and shares in the Company. As at 30 June 2017, the balance of historic creditors has been reduced by \$1,123,386, which was paid during the current half year.

#### 4. SEGMENT REPORTING

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board of Directors in order to allocate resources to the segment and to assess its performance.

The Company operates in the mineral exploration industry. For 2017, and as disclosed in the 2017 Annual Report this consisted of mineral exploration in Austria and Australia. For the current period, this consists of mineral exploration in Austria. For management purposes, the Company is still organised into one main operating segment which now involves the exploration of minerals in Austria. All

<sup>&</sup>lt;sup>2</sup> As per the terms of the acquisition, advances of \$200,000 and \$550,000 were made by the Company, pre-acquisition.

of the Company's activities are interrelated and discrete financial information is reported to the Board (Chief Operating Decision Maker) as a single segment. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

#### 5. DEFERRED EXPLORATION AND EVALUATION EXPENDITURE

|                                   | Six months to 31 | Year to      |

#### c) Share based payments

The following options were issued as share-based payments arrangements during the period:

|                                | Number of<br>Options | Grant date  | Expiry Date | Exercise<br>Price | Fair value at grant date | Vesting date |

The fair value of the equity-settled share options granted is estimated as at the date of grant using the Black and Scholes model taking into account the terms and conditions upon which the options were granted.

<sup>&</sup>lt;sup>1</sup> A further 11,250,000 facilitator options pursuant to the December placement will be issued to Directors Tony Sage (2,500,000), Stefan Muller (6,250,000) and Malcolm Day (2,500,000) upon receipt of shareholder approval, at which time the options will be valued and recorded as a capital raising cost.

| _  | Assumptions |            |
|--|-------------|------------|
| Number options issued to corporate advisor | 2,000,000   | 3,150,000  |
| Dividend yield                             | 0.00%       | 0.00%      |
| Expected volatility                        | 81%         | 98%        |
| Risk-free interest rate                    | 1.77%       | 1.90%      |
| Expected life of options                   | 2.64 years  | 1.46 years |
| Exercise price                             | \$0.05      | \$0.25     |
| Grant date share price                     | \$0.043     | \$0.22     |

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

## 7. REVERSE ACQUISITION ACCOUNTING

On 9 September 2016, the Company completed the legal acquisition of European Lithium AT (Investments) Limited. Under the terms of AASB 3 "Business Combinations", European Lithium AT (Investments) Ltd was deemed to be the accounting acquirer in the business combination. The transaction has therefore been accounted for as a reverse acquisition.

The reverse acquisition is treated as an acquisition of assets and liabilities of Paynes Find Gold Limited (renamed European Lithium Limited) as at 9 September 2016.

|  | 31 December |
|--|-------------|
|  | 2016        |
| Net assets acquired  | \$          |
| Cash and cash equivalents                                    | 343,642     |
| Trade and other receivables                                  | 35,000      |
| Advances to related companies                                | 750,000     |
| Trade and other payables                                     | (210,291)   |
| Value of asset acquisition as at 9 September 2016            | 918,351     |
| Loss on acquisition of European Lithium AT (Investments) Ltd |             |
| Deemed acquisition consideration                             | 5,843,580   |
| Less net assets acquired                                     | (918,351)   |
| Transaction cost of reverse acquisition on 9 September 2016  | 4,925,229   |

The consideration for the acquisition comprised the issue of 187,500,000 ordinary shares to the vendors, plus a further amount of deferred consideration in the form of the issue of 62,500,000 ordinary shares to the vendors upon upgrading the JORC resource for the Wolfsberg Lithium Project to a minimum of 4.5m tonnes inferred resource at 1.3% Li2O (these shares were issued on 23 December 2016).

#### Impact of acquisition on the results of the Group

If the combination had taken place at the beginning of the 2016 half year, the loss of the Group for the 2016 half year would have been \$7,171,881 and revenue from continuing operations would have remained unchanged.

#### 8. BASIC AND DILUTED LOSS PER SHARE

| Loss per share: Basic loss per share (cents per share) Diluted loss per share (cents per share) | (0.04)  | (1.94)<br>(1.94)  |

There are dilutive potential ordinary share on issue at balance date. However, given the Company has made a loss, there is no dilution of earnings hence the diluted loss per share is the same as for basic loss per share.

| Weighted average number of shares: | 482,148,394   | 358,442,115   |

Under the principles of reverse acquisition accounting, the weighted average number of shares used in the calculation of basic and diluted earnings per share for the comparative period is the number of shares issued by the legal parent to acquire the results of the legal subsidiary for that period, even though the issue of the shares did not occur until the time of the reverse acquisition in the current period.

#### INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of European Lithium Limited

## Report on the Condensed Half-Year Financial Report

#### Conclusion

We have reviewed the accompanying half-year financial report of European Lithium Limited ("the company") which comprises the condensed consolidated statement of financial position as at 31 December 2017, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory notes, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of European Lithium Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and complying with Accounting
