

Risk Management Policy

European Lithium Ltd
ACN 141 450 624

Introduction

The Board of European Lithium Ltd (**Company**) is committed to managing its risks in order to both minimise uncertainty and to maximise its business opportunities.

The Board recognises its exposure to economic, environmental and social sustainability risks that could adversely affect the achievement of the Company's objectives and successful implementation of its business strategies.

The primary objective of risk management is to ensure that risks facing the business are appropriately managed to deliver better outcomes. The risk management framework aims to achieve this by:

- Capturing and evaluating risks and opportunities;
- Determining whether further action is required; and
- Taking further action where necessary.

For the purpose of this Policy, risk is defined as possible outcomes that could materially adversely impact the Company's financial performance, assets, reputation, people or the environment.

Risk Oversight

The Board has the primary responsibility for identifying the principal risks and opportunities of the Company's business and ensuring that appropriate risk management systems and an internal control framework are established and reviewed.

The Board has responsibility for establishing, implementing and maintaining the Company's risk management systems and internal control framework.

Day-to-day responsibility for risk management and internal control is delegated to the Company's management, with the Chairman, Chief Executive Officer and Chief Financial Officer being responsible to the Board for identifying matters requiring Board consideration.

The Board recognises that this delegation of responsibility does not reduce its primary responsibility for the oversight of risk management.

Not all aspects of risk management can be formalised, and the Company places considerable reliance on the skill, experience and judgement of its people to take risk managed decisions within the Policy framework and to communicate openly on all risk related matters.

Risk Management System

The Company's system for identifying, assessing, monitoring and managing its risks is as follows:

- The Board monitors management and operational performance on an ongoing basis;
- The Board is provided with regular cash-flow financial reports;

- An insurance program is prepared by the Company's management, and may be reviewed by the Board;
- All statutory and external financial reporting requirements as required by the ASX Listing Rules, Corporations Act and relevant accounting standards, are complied with in terms of quarterly, half yearly and annual financial reports and the Board reviews these reports and related accounting procedures on an ongoing basis;
- Presentations are made to the Board throughout the year by appropriate members of senior management on the Company's projects;
- All major capital expenditure, acquisitions and divestments are approved by the Board;
- A Continuous Disclosure Policy has been adopted to ensure that all price sensitive information is disclosed to the market and shareholders or investors on a timely basis;
- A Securities Trading Policy has been adopted to ensure that all trading in the Company's securities by KMP and Personnel occurs in compliance with statutory requirements; and
- The adoption of the Code of Conduct which is applicable to all Directors, officers, employees, consultants and contractors setting out the expected standards of conduct and compliance.

Performance Evaluation

Please refer to the Company's Performance Evaluation Policy for details on the performance evaluation of the Board.

Review of Policy

The Board shall review this Policy as required.

This Policy was approved by the Board of the Company on 14 June 2018.
