DIRECTORS' REPORT

DIRECTORS' REPORT

Your Directors submit the Interim Financial Report of European Lithium Limited (**European Lithium** or the **Company**) and its controlled entities (together the **Group**) for the half-year ended 31 December 2021. In order to comply with the provisions of the *Corporations Act 2001*, the Directors report as follows:

Directors

The names of Directors who held office during or since the end of the interim period and until the date of this report are noted below. Directors were in office for the entire period unless otherwise stated.

Antony Sage	Executive Chairman
Malcolm Day	Non-Executive Director
Michael Carter	Non-Executive Director (appointed 31 August 2021)
Mykhailo Zhernov	Non-Executive Director (appointed 22 December 2021)
Kimon Gkomoziias	Executive Director (resigned 31 August 2021)

Review of Operations

Corporate

Millstone Acquisition and Placement

On 4 November 2021, the Company announced that it has entered into binding agreements under which EUR will acquire Petro Consulting LLC (**Petro Consulting**), a Ukraine incorporated company that is applying (through either court proceedings, public auction and/or production sharing agreement with the Ukraine Government) for 20-year special permits for the extraction and production of lithium at the Shevchenkivske project and Dobra Project in Ukraine, from Millstone and Company Global DW LLC (**Millstone**). In addition, under the terms of the agreement, Millstone will subscribe for \$20m in shares in the Company, with \$2.5m invested immediately, \$2.5m subject to shareholder approval (approval received at the AGM held on 21 January 2022) and the balance of \$15m following completion of the acquisition of Petro Consulting.

Board Changes

During the half year ended 31 December 2021, the Company announced the appointment of Mr Michael Carter as Non-Executive Director and the resignation of Mr Kimon Gkomoziias as Executive Director of the Company with effect from 31 August 2021.

On 22 December 2021, the Company announced the appointment of Mr Mykhailo Zhernov as Non-Executive Director of the Company. Mr Mykhailo Zhernov's appointment was in accordance with the terms of the Millstone transaction.

During the half year ended 31 December 2021, as a result of EUR's advancement of the Wolfsberg Lithium Project and increased levels of activities, Tony Sage transitioned to Executive Chairman.

Placement

During the half year ended 31 December 2021, the Company issued 141,000,000 shares at an issue price of \$0.0625 per share with a 1 for 1 free attaching listed option (exercisable at \$0.075 on or before 19 April 2024) to raise proceeds of \$6.50m (before expenses) (**August Placement**)

Financing Facility - Winance

The Company previously announced that it had secured a A\$10 million finance facility with Winance Investment LLC (**Winance**) (refer ASX Announcement 31 July 2019). On 5 March 2020, the Company announced that it had agreed to draw down A\$2 million (2,000 convertible notes) under the Winance facility (**Tranche 2**).

DIRECTORS' REPORT

During the half year ended 31 December 2021, Winance converted the remaining 300 Tranche 2 notes. As at 31 December 2021, Winance had nil Tranche 2 convertible notes remaining.

OTC

On 23 November 2021, the Company announced that its shares are now quotes on the US OTCQB market under the symbol EULIF.

OTC Markets Group Inc. (OTCQX: OTCM) operates the OTCQX® Best Market, the OTCQB® Venture Market, and the Pink® Open Market for 11,000 U.S. and global securities. The OTC Markets Group provide an SEC regulated Alternative Trading System, OTC Link® ATS, that connects a diverse network of broker-dealers to provide liquidity and execution services for the OTC markets, therefore, enabling investors to easily trade through the broker of their choice and empower companies to improve the quality of information available for investors. OTC Markets Group Market Data is distributed by most major financial data distributors, including Bloomberg, Thomson Reuters, Interactive Data, Factset, Fidessa, NASDAQ and SIX Financial.

Capital Raisings and Movements

On 16 August 2021, the Company issued 104,000,000 shares and 52,000,000 listed options (\$0.075 each expiring 19 April 2024) pursuant to the August Placement. On the same day, Evolution was issued 2,000,000 shares and 20,000,000 listed options (\$0.075 each expiring 19 April 2024) as lead managers for the August Placement. In addition, the Company issued 200,000 shares in satisfaction of debts of \$12,000 owed by the Company to unrelated third parties.

On 23 August 2021, the Company issued 6,000,000 shares to Winance upon the conversion of 300 convertible notes.

On 17 September 2021, the Company issued 150,000 shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022).

On 30 September 2021, the Company issued 4,000,000 shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022).

On 5 October 2021, the Company issued 3,400,000 shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022).

On 20 October 2021, the Company issued 7,500,000 shares upon the exercise of listed options (\$0.075 each expiring 19 April 2024).

On 5 November 2021, the Company issued 4,043,688 shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022).

On 12 November 2021, the Company issued 1,713,335 shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022) and issued 8,528,035 shares upon the exercise of listed options (\$0.075 each expiring 19 April 2024).

On 30 November 2021, a total of 10,000,000 unlisted options expired (\$0.15 each).

On 11 December 2021, a total of 2,500,000 unlisted options expired (\$0.20 each).

On 22 December 2021, the Company issued 26,310,749 shares in respect to tranche 1 of the subscription agreement pursuant to the Millstone transaction.

Wolfsberg Lithium Project – Austria

Drilling

Two drill rigs mobilised Q1 & Q2/2021 were demobilised in Q3 after the successful completion of the deep hole drilling program. Both drill rigs completed the ambitious drilling program for deep holes (>300m in depth) totalling 7,923m during Q3/2021. The drilling contractor delivered the high-quality work with an extraordinary core recovery and remaining incident free.

Figure 1: Drill Rig I - in operation

Total Measured, Indicated and Inferred Mineral Resources now total 12.9 Mt grading 1.00% Li₂O. This includes the previously announced estimate of 9.7Mt grading 1.03% Li₂O in the Measured and Indicated Resource category (see ASX Announcement, 8 November 2021) and the updated Inferred Resource estimate of 3.1 Mt grading 0.90% Li₂O.

Category	Tonnage (t)	Grade (% Li ₂ O)
Measured	4 313 000	1,13
Indicated	5 430 000	0,95
Total (M+I)	9 743 000	1,03
Inferred	3 138 000	0,90
Total (M+I+In)	12 881 000	1.00

Notes:

- 1) resources estimated based on minimum mineralized intersection of 0.5m
- 2) bulk density of 2.73 t/m³ applied to volumetric estimate
- 3) Grade is based on length weighted mineralized intersections, assuming minimum intersection width of 2m and incorporates internal dilution.

Definitive-Feasibility Study (DFS)

The Company completed the resource upgrade to 12.9Mt grading 1.00% Li₂O in Zone 1 that is an essential part of the DFS. The final results were signed off by the Company's competent person and published (see ASX Announcement, 1 December 2021).

Dorfner/Anzaplan (**Dorfner**) based in Germany, as the Company's independent consultants, completed the final locked cycle test as part of the QA/QC process for the metallurgical test work to assess and optimise process lines, flowsheets and layouts. In total there were 4 LCTs required to achieve full confidence in the chemical process lines developed. The comprehensive report provided by Dorfner covers the final results as expected.

DIRECTORS' REPORT

Dorfner carries out a series of tests using bulk samples to provide information for use in various feasibility studies including the following:

- Sensor based ore sorting tests to minimise dilution of ore into a process plant.
- Pilot test work to understand the physical processing characteristics of the Wolfsberg ore into a spodumene concentrate product.
- Settling and filtration tests.
- Gravity separation techniques for mica removal.
- Hydrometallurgical tests for conversion of spodumene concentrate into a lithium carbonate product.
- Conversion tests for production of lithium hydroxide from lithium carbonate to determine recoveries and end product specifications.

End product quality results have now been received for both lithium carbonate and lithium hydroxide produced from the Wolfsberg ore compared against a series of German Industry Normal Specifications. These specifications were derived from a cross section of Dorfner's experiences with end users in lieu of a definitive industry standard which currently does not exist.

The results show a high-quality battery grade specification of either lithium carbonate or lithium hydroxide can be produced from the Wolfsberg ore.

The results for the major impurities in the lithium hydroxide product are all well below the comparable product specification. The lithium content is calculated as 100% minus the total impurities.

Land Access

The Company's 54 exploration remain unchanged as approved by the Mining Authority in Q4/2019 (expire Q4/2024) and 11 mining licenses have been renewed to expire at the end of Q4/2023. Compulsory operational work has continued on these licenses and will be reported to the mining authority, as necessary.

Environmental

The Company has completed its environmental base line studies at the project area for the purpose of the compulsory and independent second mine access, and the potential location for the hydrometallurgical conversion plant. A comprehensive report has been provided to the Company and will be incorporated in the final DFS document.

Monitoring of mine water flows and quality have continued.

Hydrogeology

The Company continued during Q3 and Q4/2021, with hydrogeology monitoring programs on a weekly, monthly and quarterly time frame:

- The weekly monitoring program includes measuring the water level at the surface and underground sites,
- The monthly monitoring program includes sampling and analyzing defined chemical and physical parameters,
- The quarterly monitoring program includes water sampling and analyzing water from previously defined field sites and analyses at certified Austrian labs. The water samples are analyzed according to Austrian requirements for drinking water.

All hydrogeological data continues to be stored and secured within the Company's database.

The preparation work by SRK and geological consultant, GEO Unterweissacher, continues to ensure in-hole hydrogeological test work has been completed appropriately and will continue into the future.

Data from the above activities is fed into a water measuring database from which an annual report is produced.

Marketing

The strategy for the Company remains unchanged and is focused on the supply of lithium hydroxide to the nascent lithium battery plants of Europe. The Company is in discussion with several industry players regarding future off-take contracts. Good progress has already been made with potential off-take partners and a Memorandum of Agreement (**MoA**), was recently signed with Traxys (see ASX Announcement, 22 December 2021).

Horizon 2020

The Company infield and underground geophysical survey program, forming a part of the database for the DFS, with the European Union funded Horizon 2020 - GREENPEG programme.

The Company continued to work proactively in the already approved and funded Horizon 2020 LithRef programme.

DIRECTORS' REPORT

Continued participation shows the Company's ability and eligibility to contribute with EU-level support to the sustainable supply of battery grade lithium, sourced and produced in Europe.

Sustainability

The Company continues to develop technical solution to incorporate recycled lithium-ion battery materials into the flowsheets for final lithium carbonate and Lithium hydroxide (**LiOH**) production. This project, defined in a letter of intent, is technically supervised by a research group from University of Graz.

The Company has appointed Tunley Engineering to work with the technical advisory team to assess the Wolfsberg Lithium Project to be Carbon Neutral.

Jadar Lithium – Austria

On 11 May 2021, the Company announced that it had entered into a Collaboration Agreement with EV Resources Limited (formerly Jadar Resources Limited) (ASX: EVR) (**EVR**) and an agreement to acquire a 20% interest in EVR's Austrian Lithium assets from their JV partner (**EVR Acquisition**) (see ASX Announcement, 11 May 2021). EVR holds an 80% interest in Subsidiary Jadar Lithium GmbH (**Jadar Lithium**), the holder of the Weinebene and Eastern Alps Projects which lies 20km to the east of the Company's Wolfsberg Project.

The Collaboration Agreement includes the establishment of a Technical Advisory Committee for the purpose of jointly collaborating in connection with the Weinebene and Eastern Alps Projects and sharing information to identify the best options to advance those assets and operations. This includes making recommendations for exploration programs, budgets and development scenarios in relation to the assets and operations. During the half year, EVR announced the establishment of the Technical Advisory Committee comprising Mr Tony Sage of EUR and Mr Luke Martino of EVR. The Committee has commenced work to expand the Wolfsberg Project and look for potential extensions to the mineralisation that may continue into the Weinebene and Eastern Alps Projects.

Australia E47/4144

On 23 September 2020, the Company announced that it had secured tenement E47/4144 via ballot under the WA Mining Act. E47/4144 is progressing through the WA Mining Act regulatory application process and has cleared the Native Title process. The Company is continuing discussions with a stakeholder and remaining objector to negotiate access with respect to areas of existing or intended infrastructure.

Events Subsequent to Reporting Date

On 28 January 2022, the Company issued securities approved by shareholders at its AGM, including:

- 26,320,831 shares representing 5,041 residual shares in respect to the first tranche and 26,315,790 shares pursuant to the second tranche of the subscription agreement with Millstone and Company Global DW LLC following receipt of funds of \$2.5m (refer ASX announcement 3 November 2021)
- 200,000 shares issued in satisfaction of debts of \$12,000 owed by the Company to an unrelated third party
- 172,640 shares issued in satisfaction of debts of \$22,271 owed by the Company to an unrelated third party
- 2,032,241 fully paid ordinary shares upon the exercise of unlisted options (\$0.05 each expiring 31 July 2022)
- 820,000 fully paid ordinary shares upon the exercise of unlisted options (\$0.075 each expiring 19 April 2024)
- 21,000,000 unlisted options with 7,000,000 having an exercise price of \$0.06 per share, 7,000,000 having an exercise price of \$0.08 per share and 7,000,000 having an exercise price of \$0.10 per share all expiring 36 months from the date of issue
- 80,000,000 performance rights to Directors of the Company (refer to note 13)
- 2,500,000 listed options with an exercise price of \$0.075 each expiring 19 April 2024 to Director Michael Carter

No matters or circumstances have arisen since the end of the half-year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs in future financial years.

Statement of compliance

These half-year consolidated financial statements are general purpose financial statements prepared in accordance with the requirements of the *Corporations Act 2001*, applicable accounting standards including *AASB 134 Interim Financial Reporting*, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board (**AASB**). Compliance with *AASB 134* ensures compliance with *IAS 34 Interim Financial Reporting*.

The half-year financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this half-year financial report be read in conjunction with the annual financial report for the year ended 30 June 2021 and any public announcements made by European Lithium Limited and its subsidiaries during the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001* and the ASX Listing Rules.

Basis of preparation

The half-year financial report has been prepared on a historical cost basis, except for the revaluation of certain financial instruments to fair value. Cost is based on the fair value of the consideration given in exchange for assets. The company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

Adoption of new and revised standards

Standards and Interpretations applicable to 31 December 2021

In the half-year ended 31 December 2021, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 July 2021. As a result of this review, the Directors have applied all new and amended Standards and Interpretations that were effective as at 1 July 2021 with no material impact on the amounts or disclosures included in the financial report.

Significant accounting judgments and key estimates

The preparation of the half-year financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this half-year financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2021.

2. SEGMENT REPORTING

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board of Directors in order to allocate resources to the segment and to assess its performance.

The Company operates in the mineral exploration industry. For management purposes, the Company is recognised into one main operating segment, the exploration of minerals in Austria. All of the Company's activities are interrelated and discrete financial information is reported to the Board (Chief Operating Decision Maker) as a single segment. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

Winance

On 31 July 2019, the Company entered into a Convertible Note Agreement with Winance Investment LLC (**Winance**) of which A\$2.0m (2,000 convertible notes) was drawn down on 20 September 2019 (**Tranche 1**). On 5 March 2020, the Company announced that it had agreed to a further draw down of A\$2.0m. As a result, the Company issued 2,000 convertible notes on 10 March 2020 which were held in escrow pending the receipt of funds (**Tranche 2**). On 2 June 2020, the Company received funding of A\$1.0m and released 1,000 notes from escrow. On 14 July 2020, the Company received funding of A\$0.5m and released 500 notes from escrow. On 30 July 2020, the Company received the final funding of A\$0.5m and released 500 notes from escrow. Winance received a commitment fee of 3% of the investment amount at the funding of each tranche.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The face value of each convertible note is AU\$1,000 and is non-interest bearing. The notes are convertible to a variable number of ordinary shares at the option of the holder of the notes any time after issue. If not converted the notes mature and are repayable twenty-four (24) months after the issue date. The conversion price for each convertible note is the lower of an 8% discount from the lowest VWAP over ten (10) days prior to the conversion date, provided that the conversion price shall not in any case be lower than \$0.04 (revised floor price).

At the time of issuance, the difference between the fair value of the convertible notes of \$1,187,378 and the proceeds received of A\$1,000,000 being \$187,378 (Tranche 2) was recorded in the statement of comprehensive income.

During the half year, Winance exercised its option to convert the remaining 300 notes (Tranche 2) borrowed under the convertible loan agreement into 6,000,000 fully paid ordinary shares of the Company.

As at 31 December 2021, Winance had nil convertible notes remaining.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of European Lithium Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of European Lithium Limited ("the company") which comprises the condensed consolidated statement of financial position as at 31 December 2021, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of European Lithium Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the directors for the financial report

The directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001*

Liability limited by a scheme approved under Professional Standards Legislation.

including giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
